

PLAYTESTER AGREEMENT

This Agreement governs the Playtesters enrolled in Funday Factory's playtester database with the purpose of playtesting relevant games.

Members of the Funday Factory playtester database will get the opportunity to participate in exclusive playtest sessions, user research activities (like surveys, interviews, or focus groups), and other activities relevant for the games.

The minimum age of registration and participation is 16 years and members of the database will contribute on a voluntary basis, but will be honoured with gift-certificates and/or other relevant appreciation for participation.

Funday Factory will collect data about the Playtester's experience with the game at hand through asking qualitative and quantitative questions and Funday Factory is storing the data alongside the other information about the individual playtester. When participating in a study, Funday Factory expects the Playtester to answer truthfully and carefully to all questions.

The Playtester accepts that Funday Factory is saving data from playtest sessions, interviews, research studies, and potential follow-up analysis. Funday Factory declares it stores this information safely and confidentially. If you want to read more about our processing of personal data, we refer to our privacy policy, which can be found at the bottom of our website: www.fundayfactory.com.

As a member, you can unsubscribe from our database at any time by sending an email to playtest@fundayfactory.com.

Funday Factory has the right to terminate memberships with no warning. Funday Factory has the right to change these terms and conditions for participating in playtest sessions and to terminate the entire playtester database. If any significant changes in the terms and conditions or privacy policy occur, Funday Factory will inform Playtester via email. Funday Factory considers changes as accepted if Playtester does not cancel subscription after Playtester has received such an email.
